RE: Netflix Privacy Litigation, No. 5:11-cv-00379-EJD

To whom it may concern:

NC

I would like to state my objection to the proposed class action settlement. My objection is based on the following:

1. The settlement calls for settlement funds to be distributed to selected "non-profits". Since I have no input into which non-profits receive the funds, I cannot know if the funds will be distributed to an organization I find objectionable.
2. It was MY privacy that was violated. Not the lawyers, not the courts, not the purposed "non-profits". If I want to contribute or not contribute my share of the settlement to a non-profit, it's my business. The award, however small, should be mine and mine alone.
3. The corrective action purposed in the settlement is insufficient to insure my privacy in the future. It does not address the fundamental problem of information sharing.
4. My personal belief is that the proper venue for egregious violations of privacy is the criminal, not civil, courts.

For the above stated reasons, I offer my objection to the settlement.
